

ACE COVID-19 Travel Requirements

Like the rest of the world, ACE is navigating the challenges of travel in the age of COVID-19. While information continues to evolve, we wanted to give you the most updated information on what you will need to travel to Jamaica and back to the United States. Your ease of travel and safety in our care are our first priority.

TRAVELING TO JAMAICA FROM THE US (Jamaica order effective April 16, 2022, indefinitely):

Pre-travel COVID-19 test no longer required

Jamaica will no longer have any travel restrictions that were imposed due to the pandemic as travelers to the island are no longer required to take a COVID-19 test to board a flight.

For faster processing on arrival at the airport, travelers are encouraged to submit their Immigration/Customs C5 card online at <https://enterjamaica.com/> and may do so at any time before arrival. If the card has not been submitted online, passengers may complete the paper form issued in-flight by the airline.

UPON ARRIVING IN JAMAICA:

Galina Breeze Hotel is on the approved list of hotels and resorts on the Resilient Corridor for tourism. You will have already chosen this hotel on the list when you filled out your Travel Authorization Form. You will present to the Immigration officer your passport, and a completed Hotel Confirmation Form (provided by ACE/Galina Breeze).

TRAVELING TO THE US FROM JAMAICA (CDC/US order effective December 6, 2021, indefinitely)

Before boarding a flight to the United States, you are required to show one of the following:

- **Regardless of vaccination status**, a negative COVID-19 test result taken no more than 1 day before travel.
- Children under 2 years old do not need to test. There is also an option for people who have documented recovery from COVID-19 in the past 90 days. Learn more about these requirements on the link below.
- **Also required:** All air passengers to the United States will also be required to provide contact information to airlines before boarding flights to the United States. More information on this is detailed in the link below.

IMPORTANT DETAILS and FAQs are available on the CDC website. Please check exact requirements for travel:
<https://www.cdc.gov/coronavirus/2019-ncov/travelers/international-travel/index.html>

ACE COVID TESTING:

The following will take place for each traveler (2 years and older) unless you have an officially approved letter confirming you've previously recovered from COVID-19 (see above):

- ACE and Galina Breeze have arranged for testing sites on our ACE properties through a Jamaican physician **within 24 hours of departure date** to satisfy requirements for both vaccinated and unvaccinated travelers.
- The test will be a nucleic acid amplification or viral antigen test as required by the CDC.
- The test will cost each traveler approximately \$35 US (credit cards accepted with a 4% fee added; cash preferred. Prices may vary)

IN THE EVENT A TRAVELER TESTS POSITIVE BEFORE DEPARTING JAMAICA:

The airlines will *not* let you board the plane with a positive test result. Airline/flight changes will be the responsibility of the traveler. Quarantine accommodations will be made on a case-by-case basis. In general, plan on at least 5 days of quarantine on ACE properties (minors must be accompanied by a trip leader/guardian) at a cost of up to \$75/per person per day for food, water, lodging. More details available upon request.
